

Introducing Jim Arthurs

James Arthurs has served as a Western Forest Products Director since July 2004. A resident of North Vancouver, British Columbia, Mr. Arthurs is Executive Vice President of Westport Fuel Systems Inc., a supplier of natural gas fuel systems for automotive applications. Previously, he was President of Cummins Westport Inc., a joint venture company that supplies natural gas engines for commercial transportation applications such as trucks and buses. He has also served as Vice President of Cryogenic Systems for Westport Innovations, as Managing Partner for i3 Transition Partners, as Senior Vice President of North American Operations for Integrated Paving Concepts and as Managing Director, Operations, for The Jim Pattison Group, one of Canada's largest privately held companies. Mr. Arthurs holds a Bachelor of Science in Computer Science from the University of Calgary.
