

Bob Scarborough Bio

Bob Scarborough has been active in the building material industry his whole career. He was with Weyerhaeuser and Blue Linx in charge of several different distribution centers. Prior to that, he led the Specialty Building Products segment for WY's North American business.

He worked for Weekes Forest Products, as an operations leader and board officer with responsibility for engineered wood products, industrial, lumber commodities, and light manufacturing for their multi state locations of Weekes, North Star, and Logan Lumber.

He received his bachelors degree in forest products manufacturing and business marketing from the University of Minnesota.

He and his wife, Ann, have two daughters who are employed in the working world.
